

**Amendments to the Claims:**

The listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Currently Amended) Body structure for a vehicle having a vehicle occupant compartment, vehicle occupant seats and a rollover bar device arranged behind the vehicle occupant seats as viewed toward the rear of the vehicle and extending transversely to a longitudinal direction of the vehicle, wherein a wall structure of the vehicle occupant compartment extending adjacent to the vehicle occupant seats and the rollover bar device are comprised of a high-strength non-metallic, fiber-reinforced plastic material and are constructionally inseparably combined, the rollover bar device comprises two individual rollover bars mounted in an area of the vehicle occupant seats, each individual rollover bar comprises two upright rollover bar columns having upright leg walls and a web wall extending between the leg walls, and free ends of the rollover bar columns comprise flange devices configured to rest in recesses of the wall structure and are glued in position.

2-6 (Cancelled)

7. (Currently Amended) Body structure according to Claim 5 1, wherein the flange devices have first flanges extending transversely to the longitudinal

direction of the vehicle and second flanges aligned in the longitudinal direction of the vehicle.

8. (Currently Amended) Body structure according to Claim ~~5~~ 1, wherein the web wall is configured to support a roof and is provided with a groove to receive a sealing body.

9-14 (Withdrawn)
